

I am requesting you disregard the NAB petition (04-160). I pay for the privilege of listening to the type of broadcast I want on satellite radio. I also listen to regular broadcast radio and derive beneficial information from both. I listen to traffic and weather on both venues and appreciate their coverage.

If I am willing to pay for the privilege of listening to satellite radio, that should be sufficient.

What is broadcast by either should have no bearing on the FCC's functions as long as the broadcasts are within the laws of good taste.

Additionally, competition should remain just that.....COMPETITION!
